ATHARV LULEKAR

Nagpur, Maharashtra, India | +91-9665925591 | atharvlulekar5@gmail.com
www.linkedin.com/in/atharvlulekar125 | aluminium5 (Atharv Lulekar)

SUMMARY: Computer Science student specializing in AI/ML with hands-on experience in deep learning, generative AI, and cloud-native ML deployment. Skilled in SQL and database management, with impactful projects in misinformation detection, deepfake image analysis, and financial advisory platforms. Patent holder in carbon emission forecasting, with certifications in RedHat System Administration and IBM RAG. Open to internships and apprenticeships across India

RESEARCH INTERESTS

Image Classification · Generative AI & LLMs · Recommendation Systems · Deep Learning Architectures · Cloud-Native ML Deployment · Personal Wellbeing with ML integration · Algorithms · Predictive Analysis

EDUCATION

B.Tech — Computer Science (AI & ML Specialization) Pursuing

Symbiosis Institute of Technology, Nagpur | Currently 5th Semester | CGPA: 8.05

Relevant Coursework: Machine Learning · Deep Learning · Neural Networks · Data Structures & Algorithms · Database Management · Cloud Computing · Operating Systems· SQL

Higher Secondary Certificate — 12th Standard 2024

Shri Shivaji Science College, Nagpur | Percentage: 82.67%

Senior Secondary Certificate — 10th Standard 2022

Bhavan's B.P. Vidya Mandir, Nagpur | Percentage: 93.8%

PROJECTS

CloudSmartspend - https://smart-spendcloud.vercel.app/ HTML/CSS · Supabase · Java Script · AI

- Engineered a high-performance **cloud-integrated financial analyzer** using **Java Script for frontend** and **Supabase for backend** implementing **client-side OCR** for automated bill scanning to eliminate manual data redundancy and errors in expense tracking.
- **Integrated LLM-based advisory via GROQ API (Llama 3.3)** and delivering chatbot experience.
- User authorization using **Google OAuth and Supabase Auth**.

aluminium5/CloudSmartspend

Student Stress Level Prediction using ML Python · Pandas · NumPy · Scikit-learn

- Built ML integrated student stress prediction using various evaluation metrics. **Integrated Scikit-Learn** for training the predictive model.

TruthGuard-AI Java-Script · GenAI · Supabase

- Developed a **hybrid misinformation detection platform** using a multi-model ensemble combining classical ML and deep learning.
- Implementation creates an impactful shift for detection of fake news and real instances.

Deepfake Image Detection Python · TensorFlow · Feature Extraction

- Investigated multi-model ensemble **combining classical ML and deep learning** for detecting manipulated media, in purview of growing misinformation challenges in digital ecosystems.
- Compared baseline classical features vs. CNN-extracted features to analyze what signals best distinguish real from generated images.

PATENTS

Title: System and Method for Carbon Dioxide Emission Forecasting using Machine Learning Models (202521127286 A). January, 2026

TECHNICAL SKILLS

Languages	**C,** Python, HTML/CSS, Java (Intermediate), Query Language
ML / DL Frameworks	TensorFlow, Scikit-learn, Hugging Face, OpenCV, Matplotlib
Cloud & DevOps	Google Cloud Platform (Cloud Build, Cloud Run), Git/GitHub, Docker (basic)
Data & Analysis	NumPy, Pandas, EDA, Feature Engineering, Statistical Modelling, SQL, Oracle-db

SELECTED CERTIFICATIONS

RedHat System Administration	Mar 2026
RAG - IBM Skillsbuild	Dec 2025
Tata – GenAI Powered Data Analytics	Jul 2025
Python Programming with RedHat	Mar 2025

AVAILABILITY & PREFERENCES

Open to: In-person · Short-term & Long-term Internships · Apprenticeships | **Location:** Pan-India / Relocation ready
